

AIM

Accept - Identify - Move

AIM BASICS ON-DEMAND VIRTUAL TRAINING

Accept - Identify - Move

AIM Blends Mindfulness, Acceptance, and Behavior Analysis together to form an intervention approach capable of transforming the lives of children. The target of this training is to increase providers' understanding of AIM's theoretical background, ability to develop an intervention system that meets the needs of the children they work with, and to implement each component of the AIM curriculum fluently. Daily lessons, comprehensive data recording sheets, and progress monitoring forms are reviewed in this training and are part of the AIM educational program.

Take a brief journey into the world of AIM. Learn about the various elements of mindfulness, ACT, and applied behavior analysis.

Video presentations of Dr. Dixon speaking on the content • Brief quizzes to evaluate competency • Readings to enhance your understanding.
