

School Age & Family Services

IEP Meetings

Allow ComWell to attend your child's IEP meetings as a community representative. We can provide insight into services that may be beneficial for the child and family as well as serve as a resource for planning for the future services for your student.

Case Management

Our compassionate staff will assist you with finding the most supportive resources on your journey to recovery, whatever that may be. The recovery coaching staff ensure optimal use of community based services and benefits for individuals with severe and persistent mental illness as well as group and individual skill building activities focused on assisting individuals with a mental illness to achieve their personal goals. Parents with children with disabilities can utilize case management services to assist with entitlement paperwork, navigating the state system and so much more.

Transition Services

ComWell Home Based Service Coordinator can attend transition meetings to provide resources for your student as they transition out of educational services into adult services. As part of this transition, ComWell can assist with employment options for your individual, including volunteer opportunities, task analysis and even customized employment.

Behavioral

Based on the family's funding options, ComWell's Board Certified Behavior Analyst can be used to provide behavioral support in the home, residential, day program or vocational settings.

Home Based Services

ComWell has Self Directed Assistance (SDA) services with a dedicated SDA to support families who receive home based services. SDA can provide support to families as they are beginning their wait for services and starting the PUNS process. Once selected the SDA will assist families with securing personal support workers, fiscal time keeping and management, and obtaining resources, as well as many others.

Psychiatric

Our psychiatrist and nursing staff provide psychiatric evaluations as well as monitor medications and health interactions for clients in our behavioral health services

Counseling

ComWell offers a full range of counseling services in Southern IL for individuals struggling with anxiety, depression, trauma, and other mental health concerns. Compassionate services are provided to all ages through individual, family and group counseling. Our skilled clinicians can help you get back to living life to the fullest in a safe, welcoming, trauma informed environment. ComWell provides mental health counseling services to Randolph County IL, Washington County IL, and Southern Illinois.
